ABOUT SEGO RIDGE

Sego Ridge builds and repairs campground and recreation-site infrastructure across the Intermountain West. Our crew self-performs plumbing and electrical at the master level and handles carpentry and site work in-house - fewer subcontractors, one accountable contractor. Before founding the company, founder Bradley Morgan led recreation builds on Forest Service concession sites, including a host cabin and new accessible restrooms. We operate campgrounds ourselves, so we build for hard public use - and work safely inside an operating site.

Ready to build and repair the facilities your visitors count on.

Bradley Morgan · (801) 631-8589 · brad@segoridge.com · segoridge.com
